Profile not to actual proportions.

KEY TO SYMBOLS

- Crystal
- △ Indented Natural
- Cavity
- ◇ Needle

Fed symbols denote internal characteristics (inclusions). Green or black symbols denote external characteristics (blemishes). Diagram is an approximate representation of the diamond, and symbols shown indicate type, position, and approximate size of clarity characteristics. All clarity characteristics may not be shown. Details of finish are not shown.

This Report is not a guarantee, valuation or appraisal and contains only the characteristics of the diamond described herein after it has been graded, weighed and analyzed by the laboratory issuing this Report ("GIA") and/or has been inspected using the techniques and equipment used by GIA at the time of the examination and/or inspection. No person named in this document are not a guarantee, valuation or appraisal of a diamond's quality, clarity or origin or source, or that the diamond will be detectable by the inspection in the future. GIA does not represent or warrant concerning any trademark, name, or symbol which is registered by GIA or which is identified in this Report. The recipient of this Report may wish to consult a credible jeweler or geologist about the information contained herein.
